YMM Angel Flight Club

ALVARO PINTO, PH.D., MBA — DIRECTOR

PROFILE

Originally from Brazil, Dr. Pinto is a recognized leader and advocate of responsible development. He has over 30 years of experience as a sustainability professional across a range of industries including the mineral mining and oil & gas sectors. His well cultivated negotiation skills have yielded countless agreements and projects with industry partners and governments in Canada, South America, the United States, and Africa. Throughout his career he has held industry and government regulators accountable to perform according to the highest sustainability standards in the areas of social responsibility, environmental performance, and health & safety. These efforts have resulted in the implementation of new and enhanced sustainability policies, social and community programs, environmental research, technical programs, and forums.

Having lived in Fort McMurray for more than 10 years, Alvaro knows how important accessing healthcare services can be for the communities in our region, especially when it comes to needing medical care that is not available here. This is one of the reasons Dr. Pinto jumped at the opportunity to be on the Board of Directors for the YMM Angel Flight Club, and support access to vital healthcare services for those in the Wood Buffalo region that need it most. The YMM Angel Flight Club is thrilled to have someone with Alvaro's level of experience on our board!
